

BCL Associates Limited (BCL) is a leading consultancy firm in Bangladesh. It opened its doors in the 1960s and grew to become a leader in the profession. In more recent decades the company's operations have grown considerably through a planned geographic expansion and diversification of activities, adding new areas of services and new client categories. The international activities were inaugurated in the early 1990s and have since steadily expanded to some 20 countries in south, southeast and central Asia and southern Africa.

The principal services currently provided include:

- pre-investment studies
- resource survey
- topographical, hydrological, geotechnical investigation and engineering
- traffic studies and transport planning
- landuse and physical planning
- rural development and agriculture
- urban development and architecture
- water supply, sewerage and waste management
- irrigation, drainage, flood control and river engineering
- transportation, highway and bridge engineering
- port and harbour engineering
- environmental, social planning and social safeguard management
- rural electrification
- power generation, transmission and distribution
- project management, contract administration and supervision of construction
- human resource development and skill training
- information technology and hi-tech parks
- industrial planning, design and management

BCL is an independent firm of consultants and, as a member of the Bangladesh Association of Consulting Engineers, subscribes to the general principles and standards of professional conduct laid down by the International Federation of Consulting Engineers (FIDIC).

BCL's Quality Assurance System

BCL is an ISO 9001:2015 (Quality Management System) and ISO 14001:2015 (Environmental Management System) certified company.

Organization

BCL is a private limited company since 1968 with its Corporate Office in Dhaka. The management of the company rests with a Board of Directors. The present Board comprises four members, all of whom have spent most of their careers in consulting services with BCL and are experienced professional.
